Molla Nazmus Saqib

PROJECT & OPERATIONS COORDINATOR

Ontario, Canada saqib.uxui@gmail.com

Project coordinator with experience across client delivery, vendor operations, digital-product design and field technology. Combines a computer science background with Canadian postgraduate education in project management and interactive media. Coordinates requirements, approvals, costs, timelines and delivery through clear communication and practical follow-through.

CORE CAPABILITIES

Project delivery: Requirements gathering · Timeline and deliverable tracking · Status reporting · Approval and change coordination · Issue resolution

Operations: Vendor sourcing and negotiation · Quotation and cost comparison · Order coordination · Delivery and fulfillment · Workflow improvement

Tools: Microsoft Excel and Office · Trello · Wave · Figma · Adobe XD

PROFESSIONAL EXPERIENCE

Project Coordinator October 2024 – Present

Identify BDA, Canada · Official title: Print Project Coordinator

- Coordinate approximately 6–10 client projects each month, from clarifying requirements and obtaining artwork approvals through production, fulfillment and billing follow-up.
- Source and coordinate a network of 20+ external vendors across Canada, the United States, China and Turkey; compare pricing, quality, capability and turnaround to recommend suitable suppliers.
- Track approvals, milestones, production progress and delivery using Trello and internal workflow tools; communicate project status and open issues to the CEO, clients and delivery partners.
- Manage requirement changes, rush orders and production issues by confirming impacts, arranging alternatives and coordinating corrective action with vendors and clients.
- Support pricing and financial accuracy through vendor cost comparisons, margin calculations and reconciliation in Wave; coordinate invoicing priorities with the accountant.
- Standardize recurring work through email and quote templates, artwork guidelines, preferred-vendor references and an Excel delivery log with annual reporting.

Field Technician, Level 1 · On-call January 2023 – September 2024

Dynamic Infotech

- Supported customer and commercial-site technology installations, including PCs, printers, point-of-sale systems, security cameras and other connected devices.
- Confirmed site requirements, coordinated with customers, resolved installation issues and prioritized tasks, including assignments completed independently.

Sales Representative · Part-time January 2023 – September 2024

UPS and Staples

- Clarified customer needs, recommended appropriate solutions, processed transactions and resolved service issues while managing multiple customer requests.

DIGITAL-PROJECT EXPERIENCE

UX Designer

April 2022 – November 2022

iStoreiSend, Malaysia

- Worked with stakeholders to clarify business objectives and requirements for digital products, including the ODIN warehouse and fulfillment system.
- Collaborated with business and technical teams, coordinated feedback and design revisions, and supported reviews and project delivery.

UX Designer

December 2021 – March 2022

iQuantile, Bangladesh

- Gathered and analyzed user and business requirements, communicated findings across stakeholders and translated needs into design direction.
- Created personas, user stories, sitemaps, wireframes and prototypes for Quantibly; coordinated feedback and revisions with internal teams.

UX Designer

November 2020 – November 2021

Synesis IT, Bangladesh · UX internship: August – October 2020

- Contributed to public-service and digital-product projects through requirements gathering, research, wireframing, prototyping and stakeholder reviews.
- Designed the BIWTA vessel-ticketing experience independently and contributed to team projects including NBR eReturn and Convay video conferencing.
- Delivered a training session on wireframing and prototyping in Adobe XD in August 2021.
