MOLLA NAZMUS SAQIB

PROJECT & OPERATIONS COORDINATOR

Hamilton, ON | 437-518-9849 | saqibmollanazmus@gmail.com

PROFESSIONAL SUMMARY

Project Coordinator with two years of Canadian experience coordinating project workflows, schedules, procurement, client communication, cost reviews and operational reporting. At Identify BDA, coordinate work involving 25+ clients and 20+ suppliers, from requirements and approvals through production, delivery and financial follow-up, while supporting senior management with status updates and action tracking. Earlier experience with digital-system projects, requirements documentation, stakeholder reviews and technical field services. Combines hands-on project and operations coordination experience with a B.Sc. in Computer Science & Engineering and Ontario Graduate Certificates in Project Management and Interactive Media Management.

CORE COMPETENCIES

Project Coordination: Requirements gathering • Scheduling and deadline tracking • Approvals and deliverables • Issue and change resolution

Procurement & Operations: Supplier sourcing and negotiation • Quote and cost comparison • Production and delivery coordination

Stakeholders & Reporting: Client relationships • Cross-functional communication • CEO updates • Meeting and action-item follow-up

Records & Financial Support: Project tracking • Document and artwork version control • Invoice checks • Payment follow-up

PROFESSIONAL EXPERIENCE

Project Coordinator | Identify BDA, Canada — Oct 2024 – Present

- Coordinate client projects from initial requests through specifications, quotations, approvals, vendor ordering, production, delivery and billing follow-up. Have supported 25+ clients, including approximately 15 repeat clients.
- Clarify client requirements, quantities, deadlines and artwork needs; work with the graphic designer on revisions, secure client approvals and keep project files and supplier instructions current.
- Work with 20+ suppliers in Canada and internationally; compare quotations for cost, quality, capability and lead times, negotiate pricing and recommend suitable vendors and commercial options to the CEO.
- Set delivery targets and monitor orders, approvals and production stages in Trello and Excel. Follow up ahead of due dates and arrange rush production, alternate vendors or revised schedules when needed.
- Address changes and production problems, including incorrect quantities, artwork issues, shortages and delivery delays; gather evidence, coordinate corrections or reprints, and keep clients informed of cost and timing implications.
- Prepare quotations using vendor costs and established pricing rules; verify supplier invoices against agreed estimates, investigate discrepancies with vendors and the accountant, and track payment follow-up in Wave.
- Brief the CEO daily on project status, outstanding decisions, supplier issues and priorities. Arrange client meetings, prepare agendas and notes, monitor action items and produce semi-annual sales reports and management presentations.
- Maintain organized client, quotation, artwork and confidential pricing records; use reusable email and quotation templates, artwork setup guidance and preferred-supplier lists to reduce repeated work and missing information.
- Coordinated an approximately $55,000 conference project at the Metro Toronto Convention Centre, working with eight vendors over three weeks and supporting onsite setup; helped resolve an incorrect backdrop-frame issue without delaying the event.

EARLIER PROFESSIONAL EXPERIENCE

Field Technician Level 1 (On-call) | Dynamic Infotech, Canada — Jan 2023 – Sep 2024

- Completed field assignments at customer sites, confirming work requirements and access arrangements and installing or supporting computers, printers, network devices, displays and point-of-sale equipment.
- Documented completed work, troubleshooting and exceptions in service reports; communicated with site contacts and escalated unresolved issues to Level 2 support.

Sales Representative (Part-time) | UPS and Staples, Canada — Jan 2023 – Sep 2024

- Assessed customer needs, recommended products and services, processed transactions and resolved service inquiries in fast-paced customer-facing roles.

UX Designer | iStoreiSend, Malaysia — Apr 2022 – Nov 2022

- Gathered requirements for ODIN, an internal warehouse and fulfilment system, and developed user-interface prototypes reflecting operational workflows; coordinated reviews and revisions with business and technical stakeholders.

UX Designer | iQuantile, Bangladesh — Dec 2021 – Mar 2022

- Analyzed business and user requirements for an organizational management system redesign and incorporated stakeholder feedback through iterative design reviews.

UX Designer | Synesis IT, Bangladesh — Nov 2020 – Nov 2021

UX Design Intern: Aug 2020 – Oct 2020

- Collaborated with government representatives, business analysts, designers and developers to gather requirements, document stakeholder needs and coordinate project reviews and revisions.
- Contributed to digital-service initiatives for Bangladesh's National Board of Revenue and Inland Water Transport Authority, translating business and user requirements into prototypes for stakeholder review.
- Presented prototypes, carried out usability testing, gathered feedback and coordinated design revisions with technical teams.
